## Ohio Department of Transportation – Stormwater BMP Resources

Do you have a specific post-construction BMP question? Are you looking for a high-level understanding to support review or a detailed training to design BMPs and incorporate them into your construction drawings. Do you need help inspecting and maintaining your BMPs? If so, OSWA has you covered! OSWA's library has hundreds of helpful resources. This webinar will show you how to access the information that's most helpful to you from OSWA and other sources associated with post-construction BMPs. No need to reinvent the wheel. Take advantage of work others have done to make post-construction BMP planning, design, construction, and maintenance easier.

Jon Prier, P.E., Environmental Hydraulic Engineer, Ohio Department of Transportation
